**SPLIT SYSTEMS**

## AUSTRALIA'S BEST SPLIT SYSTEM AIR CONDITIONER BRAND

We're proud to have been rated the best split system air-conditioner brand in both the 2021 and 2022 Finder Awards. These awards recognise brand sentiment from customer feedback on different retail product categories.

## AUSTRALIA'S BEST AIR CONDITIONER BRAND

We're proud to have been recognised by CHOICE® as Australia's best brand of air conditioner five years in a row - something no other air conditioner brand has done before. The award is based on test reviews of over 200 reverse cycle air conditioners and the results of the annual reliability and satisfaction survey completed by CHOICE® members.

## AUSTRALIA'S MOST SATISFIED CUSTOMERS

We're also proud to have been named by Canstar Blue as having the most satisfied customers of any air conditioner brand for the last four years. Canstar Blue's annual air conditioner review rates air conditioning brands on functionality and features, noise, ease of use, reliability, value for money and overall consumer satisfaction.

## MITSUBISHI HEAVY INDUSTRIES AIR CONDITIONERS AUSTRALIA

Mitsubishi Heavy Industries Air-Conditioners Australia (MHIAA) is one of Australia's leading suppliers of premium residential and commercial air conditioning systems. Delivering engineering excellence for over 130 years, the Mitsubishi Heavy Industries brand is instantly recognisable for quality and technological advancement.

With innovation central to both the organisation and the development of air conditioning systems, Mitsubishi Heavy Industries carries a strong philosophy of engineering products that are designed to improve the lives of those who use them and at the same time, create a sustainable future for our company and the world we live in.

## COMMITTED TO QUALITY

Standing behind the quality of our products, is our commitment to our customers and our after sales service guarantees. Along with the rigorous quality assurance testing carried out on all Mitsubishi Heavy Industries products, comprehensive warranties provide you with peace of mind and carry our commitment to quality.

## 5 YEARS PARTS AND LABOUR WARRANTY

Mitsubishi Heavy Industries Air conditioners Australia focuses solely on manufacturing high performance air conditioners for the Australian market. All our systems are of the highest quality and are backed by a full 5 year parts and labour warranty.

## EXCEEDING ENERGY PERFORMANCE STANDARDS

To comply with Australian standards and deliver the most efficient solutions possible to our customers, all Mitsubishi Heavy Industries Air conditioners Australia systems meet and exceed the Minimum Energy Performance Standards (MEPS).

# MHIAA Split Systems

Our award winning split systems offer a quiet and highly energy efficient solution for heating and cooling individual rooms. They are comprised of an indoor unit which is installed on an interior wall or in your ceiling and an outdoor unit which is placed on an exterior wall of your home. All split systems come with a wireless remote control as standard.

Our split systems come in a variety of types (wall mounted, floor mounted and bulkhead), a range of capacities and both cool only and reverse cycle to suit any Aussie home.

All our systems have undergone strict and rigorous testing and quality control measures to ensure they are of the highest standards and will withstand the tough Australian climate.

## Wall Mounted

- Highly energy efficient
- Convenient features and functions
- Available in range of capacities
- Suitable for any home

## Floor Mounted

- Energy efficient
- Convenient features and functions
- Perfect for colder climates

## Bulkhead

- Super quiet operation
- Discreet design
- Perfect for renovations, new builds
- Convenient features and functions

# Our Technology

## IMPROVED HEAT EXCHANGER

Our new and improved heat exchanger has been developed to improve refrigerant distribution and increase the systems effectiveness. The new design features a larger heat exchange area, boosting the unit's overall efficiency.

## COATED PCB

To protect against humid weather a protective coating is applied to the circuit board in the outdoor unit, allowing it to withstand Australia's varying weather conditions and ensure the longevity of your system.

## BLUE FIN TECHNOLOGY

Mitsubishi Heavy Industries outdoor units are coated with specially formulated layers that assist in preventing the hydrophilicity effect and assists in reducing the corrosion rate of the aluminium section from harsh Australian weather conditions.

## HIGH EFFICIENCY COMPRESSOR

One of the key features that provides Mitsubishi Heavy Industries air conditioners with their powerful performance is our highly efficient compressor. Combined with a Neodymium motor that uses powerful, rare earth magnets, Mitsubishi Heavy Industries air conditioners can deliver a higher motor efficiency while producing much less operational noise.

## DC PAM INVERTER

The PAM control used in Mitsubishi Heavy Industries air conditioners helps minimise the loss of electricity and boost the efficiency by allowing the unit to reach the temperature quickly before slowing down the compressor. This allows the unit to save energy while maintaining a comfortable temperature in the room.

## WIDE OPERATION RANGE

With our advanced technology and high quality components, Mitsubishi Heavy Industries air conditioners can operate in ambient outdoor temperatures as low as -20°C in heating mode and as high as +46°C in cooling mode.

This permits the installation in areas where the temperature conditions can be considered extreme.

# Clean Air Technology

Mitsubishi Heavy Industries' Clean Air Technology is a combination of several different yet specialised components, systems and functions that are designed to work in synchronization to help improve indoor air quality by removing allergens and odours and deactivating mould, bacteria and viruses. Learn more at [mhiaa.com.au/clean-air-technology](http://mhiaa.com.au/clean-air-technology).

Recent tests have confirmed that the enzyme-urea compound contained within Mitsubishi Heavy Industries' Allergen Clear Filter is effective in the de-activation of SARS-CoV-2, the virus that causes COVID-19<sup>4</sup>.

\* This guide has been developed to assist in model selection for the majority of normal residential air conditioning situations, and as per AS/NZS 3823 performance data. MHIAA recommend a heat load survey should be conducted by a licensed air conditioning installer. For R32 systems, minimum installation area for indoor unit and other AU/NZS Standards apply. Products are to be installed by a licensed and qualified person only.

# SRK-ZMP Series

See pg. 16-17 for full list of features and functions

## Wall Mounted 1.7kW

Designed for today's apartment living, the SRK-ZMP series combines a sleek and compact design with increased energy efficiency. Its 1.7kW capacity and compact design makes it perfect for small spaces such as spare bedrooms or home offices.

- HIGH POWER OPERATION**  
Provides 15mins of boosted power allowing you to quickly heat or cool your home before returning to normal operation.
- COMPACT SIZE**  
Both indoor and outdoor unit are compact in size making them versatile and perfect for rooms where space is limited.
- ECO OPERATION**  
Unit operates at a slightly reduced capacity to reduce power consumption while maintaining a comfortable room temperature.
- SELF CLEAN OPERATION**  
Dries the indoor unit components by running the fan on ultra-low mode, preventing the growth of mould.

Controlling your device with AC Cloud Control app requires aforementioned Wi-Fi adaptors and working internet or Wi-Fi connection. Google Account required for use with Google devices. Features and services may change without notice. Google is a trademark of Google LLC.

# Wi-Fi Solution

## VOICE COMMAND CONTROL

Your MHI air conditioner can now be connected with any Alexa-enabled or Google Assistant voice control device. Turn your air conditioner on or off, change the operation mode or set the temperature using just your voice!

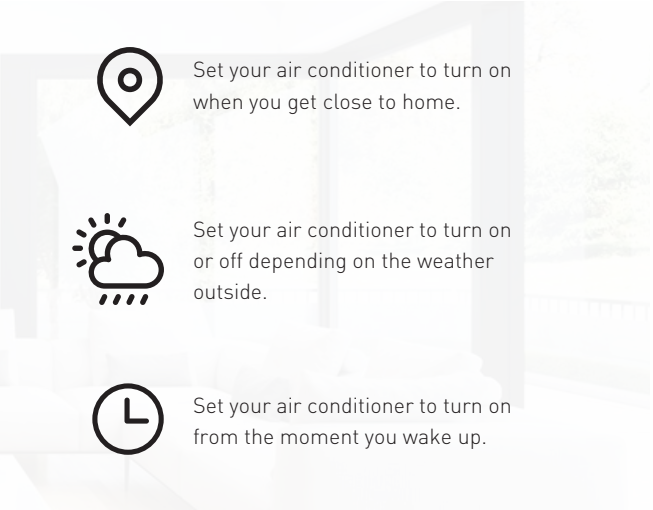

## SMART DEVICE CONTROL

Turn your unit on or check the temperature while you're out and about. Can't remember if you turned your air conditioner off? Easily check and turn your unit off remotely using your smart device.

## SMART HOME INTEGRATION

Tap into a universe of IFTTT (If This Then That) recipes and turn your MHI air conditioner into a smart air conditioner. IFTTT app allows to easily connect your air conditioner to 3rd party applications, services and devices including Gmail, Calendars, Weather, smartwatches plus thousands more, giving your unit advanced, smart functionality.

## PRODUCT COMPATIBILITY

A compatible Wi-Fi adaptor is required to control your air conditioner via smart device or voice command technology. The Wi-Fi adaptor is sold separately and can be installed during the installation of your new MHI air conditioner or retrofitted to work with your existing MHI system. # ZONED ENERGY RATING LABELS

The Australian Government, under the Greenhouse and Energy Minimum Standards (GEMS) Act, have announced that a new Zoned Energy Rating Label (ZERL) will be rolled out across Australia.

These new air conditioner labels provide more information including the difference in energy efficiency and estimated annual energy consumption of each model within these three zones.

### NEW ZONED ENERGY RATING LABELS PROVIDE INFORMATION INCLUDING:

- HOW MUCH COOLING AND HEATING POWER AN AIR CONDITIONER CAN PROVIDE\*
- HOW EFFICIENT AN AIR CONDITIONER IS DEPENDING ON WHERE YOU LIVE
- AN ESTIMATE OF ELECTRICITY THE AIR CONDITIONER WILL USE, DEPENDING ON WHERE YOU LIVE
- HOW MUCH NOISE THE INDOOR AND OUTDOOR UNIT PRODUCE\*

\*Under AS/NZS testing conditions

**THIS TELLS YOU HOW MUCH COOLING POWER THE AIR CONDITIONER CAN PROVIDE**

This example shows that if the temperature outside is hot (35°C) the system can provide 2.0kilowatts (kW) of cooling.

**THIS TELLS YOU HOW MUCH HEATING POWER THE AIR CONDITIONER CAN PROVIDE**

This example shows that if the temperature outside is cold (7°C) the system can provide 2.7 kilowatts (kW) of heating and if the temperature outside is very cold (2°C), then the appliance can provide 8.8kW of heating.

This is the name and model number. This example shows the 2.0kW Avanti PLUS system.

**THIS TELLS YOU HOW MUCH NOISE THE AIR CONDITIONER WILL PRODUCE**

The number inside the house indicates how loud the outdoor unit will be in decibels (dB(A)) if you were listening from inside your home. The number outside the house indicates how loud the outdoor unit will be standing next to it.

**THIS TELLS YOU HOW EFFICIENT THE AIR CONDITIONER IS**

The blue stars represent how efficient it is at cooling, the red stars represent how efficient it is at heating.

There are three bands of ratings for **Hot, Average** and **Cold Areas** in Australia. Use the map to see which area you live in and which band you should reference

**THIS TELLS YOU HOW ELECTRICITY THE SYSTEM WILL USE EACH YEAR FOR COOLING AND HEATING**

The lower the kWh used, the lower the cost to run the system. If you know your electricity tariff you can multiple it by these figures to estimate running costs.

**ENERGY RATING**

As tested to government regulations – actual usage may vary

Compare models at [www.energyrating.gov.au](http://www.energyrating.gov.au)

A joint government and industry program

**COOLING** 35°C **2.00 kW**

**HEATING** 7°C **2.70 kW**

2°C **3.70 kW**

CAPACITY AT OUTDOOR TEMPERATURE

**MITSUBISHI HEAVY INDUSTRIES**

**SRC20ZSXA-W / SRK20ZSXA-W**

The more stars, the more energy efficient

Energy use

**HOT** Brisbane, Darwin, Pacific Is

**AVERAGE** Adelaide, Perth, Sydney

**COLD** Canberra, Hobart, Melbourne, New Zealand

Location changes the efficiency of this appliance

Noise (dB(A)) **53** **56**

Stars: 5.5, 4.5, 4.5, 3.5

(1) The data is measured at the conditions mentioned in the table to the left.  
(2) The air conditioner is manufactured and tested in conformity with the AS/NZS.  
(3) Sound level indicates the value in an anechoic chamber. During operation these values are somewhat higher due to ambient conditions.  
(4) Select the breaker size according to applicable national standard.  
(5) The operation data indicates when the air-conditioner is operated at 240V 50Hz.
